

Unix Shell Programming (Assignment 4)

15/05/2026

1. Write a shell script which receives two filenames as arguments. It should check whether the two file's contents are same or not. If they are same then second file should be deleted. (Hint: Use the cmp command to compare files).
 2. Write a shell program that will input the range (n) through command line and print all the prime numbers within that range (starting from 0).
 3. Write a shell script which gets executed the moment the user logs in. It should display the message "GoodMorning"/"GoodAfternoon"/"GoodEvening" depending upon the time at which the user logs in.
 4. a) Create a phone book with name and phone number of 10 persons using command line.
b) Search for a record in the file whether the name of the person is present or not, the name of the person whose name to be found out will be supplied through command line.
b) Delete a record from the file, the name of the person whose name to be deleted will be supplied through command line.
 5. Write a shell script that accepts one or more filenames as argument and convert all of them to uppercase, provided they exists in the current directory.
 6. Write a shell script that counts the number of directories under the current directory. And also counts the files whose size is greater than 200 bytes.
 7. Write a shell script that accepts a filename as argument and displays its creation time, if the file exists and if it does not exist, write an appropriate message. Also print whether the existing file is readable, writable or executable.
 8. Write a shell script to find the smallest of three numbers that are read from the keyboard.
 9. Write a program to find the value of one number raised to the power of another. The numbers are entered through the keyboard.
 10. Write a program to find the factorial value of any number entered through the command line.
 11. Write a shell program to check if someone is logged on or not using command line.
 12. Write a shell program to check whether a number is palindrome or not.
